

214/6

SPEAKER STAND

The world-wide acclaimed speaker stand has been upgraded. All clamps are now high quality zinc die-cast. The new leg construction and large fixed foot end caps enhance safety and stability even further. This professional stand is TÜV (German Technical Supervisory Agency) approved for a maximum central load capacity of 50 kg. Other features such as the pull-out guard for the extension tube, the integral anti-shock component and comfortable height adjustment with spring-loaded bolt and locking screw have of course been retained.

Product variant

21460-009-55 - black

Data

Height	from 1,375 to 2,185 mm
Height adjustment	spring-loaded bolt and locking screw
Leg construction	tube legs with double cross braces
