

21435

SPEAKER STAND

The standard speaker stand constructed from steel tubing has been significantly improved. The new legs with a tubing diameter of 35 mm and the large, fixed foot end caps guarantee stability and safety. Lasered bore holes and durable, robust plastic saddle washers improve the coefficient of friction between the legs and braces and prevent scratching of the finish. A compact clamp with a patented push-button system affords user-friendly stand height adjustment. The locking screw provides additional stability and vibration-free speaker mount. Additional features include a pull-out guard for the extension tube, the mounting aid and an integral anti-shock component.

Product variant

21435-009-55 - black

Data

Height	from 1,320 to 2,020 mm
Height adjustment	locking screw with push-button system
Leg construction	tube legs with cross braces
Material	steel
Max. load capacity	50
Product Category	Baseline
Rod combination	2-piece folding design
Special features	patented gradual height adjustment system; integrated shock absorber; mounting aid included
Tube end(s)	diameter 35 mm
Type	black
Weight	5.3
